

CGATE

PLASMA SHOWER

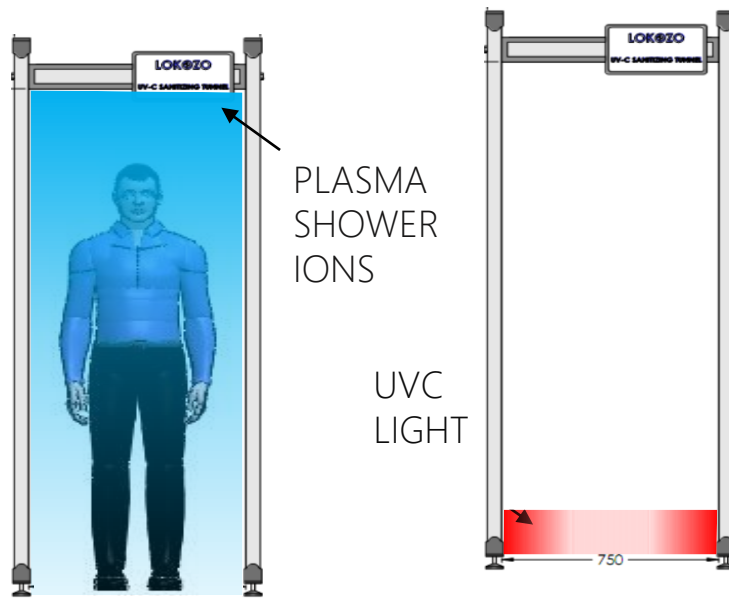

CORONA KILLER

CGATE

CORONA KILLER DISINFECTION WALK THROUGH TUNNEL

ADVANTAGE OF LOKOZO DISINFECTION WALK THROUGH TUNNEL

- CGATE disinfection is a physical process, not a chemical one.
- After a person leaves the CGATE and before another person enters the CGATE , the chamber is sterilized with UV radiation so that the next person is safe.
- Automatic contact less Human body Temperature measurement (Optional)
- Unlike harsh chemicals that are sometimes used in cleaning and sanitization products, CGATE is environmentally friendly.
- Sanitize Full Body By plasma SHOWER ions
- In the below link, a scientific analysis was conducted by Prof. Dr. Jhon. Oxford in the year 2019 on the ionized Air in a virology lab.
- No Chemical Spray
- No Maintenance
- No Health Hazards
- Fully Automatic
- Two Years System Warranty
