UV-POLLUX

UVC LED DISINFECTOR LAMP

The UV-POLLUX is the next generation UVC LED light fixture. It gives you the affordability and footprint of a traditional florescent black light tube and fixture but with the super long life of LED. This fixture is equipped with a SMD UV 1W LEDs, produces a beam angle of 120-degrees, and is easy to operate with a simple On/Off switch.

The LED is removable and may be replaced if needed. However, the tube is rated at a 50,000 hour life expectancy. The UV-POLLUX requires little to no maintenance and is suitable for small stages, lounges and mobile productions.

LOWER MAINTENANCE COSTS:

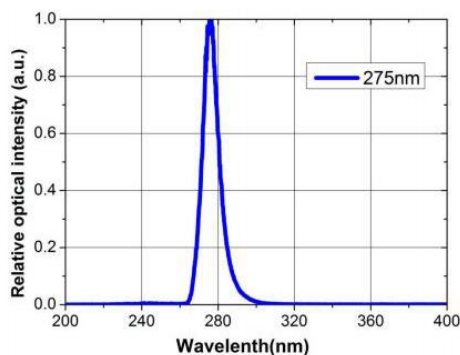

40,000 hours rated life time, lasts up to 36 years (3 hours per day), and equivalent to 10 to 40 Watt light output using 1 Watt LED, save up to \$55 over the life time of the fixture.

CAUTION:

DO NOT USE this fixture with a dimming circuit; however, it can be used with a switched outlet. Per the National Electric Code (NEC), switched wall outlets cannot be used with wall dimmers.
