

A COMPLETE SOLUTION FOR ELEVATOR DISINFECTION

- AUTOMATIC, CONTINUOUS UV-C LIGHT DISINFECTION
- ANTI MICROBIAL FILM FOR CALL BUTTONS
- ENSURE 99.9% SANITIZATION WITH OUR COMBINED SOLUTION

Elevators are hotspots for infections.

- Hundreds of users visit and come in contact with elevators daily. This makes them a central place for the spread of infections such as COVID-19.
- Constant disinfection of utmost importance to ensure complete safety in elevator premises.
- But unfortunately, existing sanitizer-based solutions require constant expenditure, maintenance, human labor and are also inflammable.
- We present an entirely automatic, no-maintenance, one-time cost solution for disinfecting elevators constantly between each ride.
- Read on to learn more.

Presenting UV-Clean

UV-Clean is a compact device powered by **PHILIPS UV-C** technology that eradicates 99% of viruses in under 10 minutes. It can be effortlessly installed in existing elevators. UV-light turns on 30 seconds after the elevator is unoccupied and automatically start disinfection process.

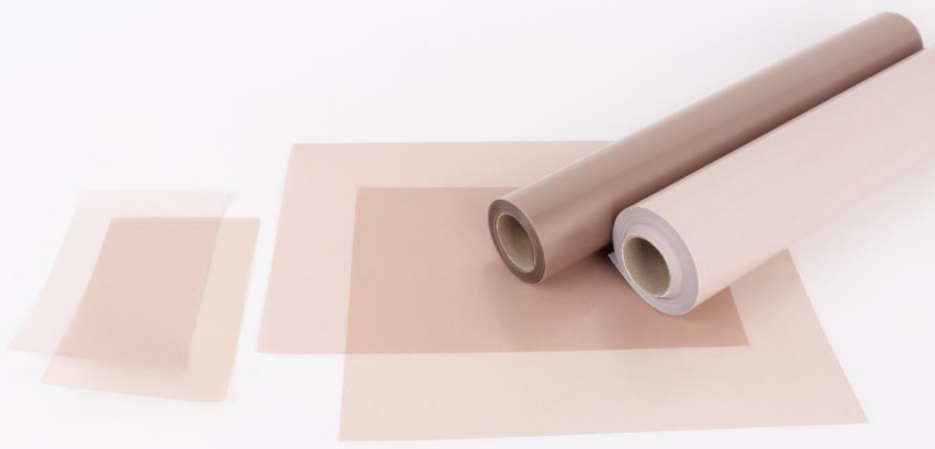

According to a very recent [study](#) conducted by **Signify (previously PHILIPS)** and **Boston University**:

“ Our test results show that above a specific dose of UV-C radiation, viruses were completely inactivated: in a matter of seconds we could no longer detect any virus.”

Dr. Anthony Griffiths

Associate Professor of Microbiology at Boston University School of Medicine

- UV-Disinfection between rides.
- Motion-sensor based
- Compact design, easy installation
- No regular need for chemical sanitizers
- Lamp Lifetime of 9,000 Hours (Replaceable)
- Ozone-free radiation

- To ensure complete safety, we provide a highly effective **anti-microbial film** that can be applied on buttons.
- Surfaces like elevator buttons panels, door handles, etc. are frequent points of contact in every-day use.
- **COPPER GUARD** acts on viruses such as the *coronavirus* directly on contact and will *deactivate 99% of bacteria and viruses within minutes of contact, automatically.*
- This is the perfect, **no maintenance** solution for button panels, both inside and outside of the elevator that **will work for decades without any issues.**

COPPER GUARD

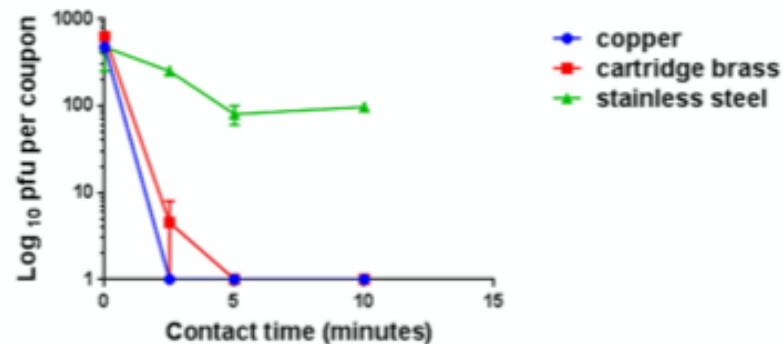

The ***anti-microbial film***
for instant
sanitization of all
surfaces

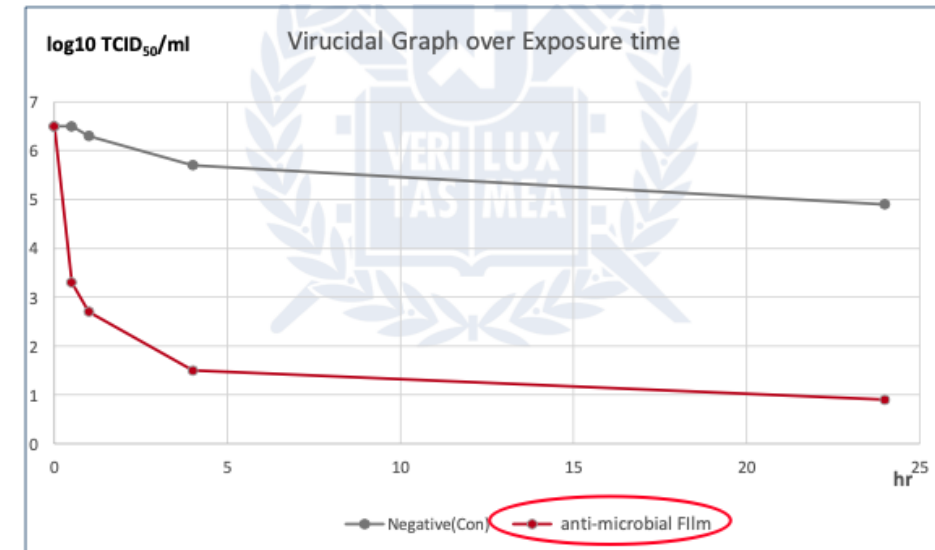

Recent successful studies by research groups and organizations about efficiency of copper films against COVID-19 and other bacteria, microbes & pathogens:

	BLANK	#1
AT BEGINNING	1.4×10^4	1.4×10^4
AFTER 24 h	2.8×10^5	< 0.63
VALUE OF ANTI-MICROBIAL ACTIVITY	-	5.6

Scientifically Tested for 99.99% elimination of corona virus **

** Please contact us in case you would like to view the lab-test certificates

How to ensure complete safety?

- With both UV-Clean and Copper Guard, we can ensure complete, worry-free disinfection of our elevators from harmful infections: both airborne and touch-based
- Moreover, our products work continuously through years without any maintenance.
- This combination ensures that proper disinfection measures are taken in between every single elevator ride during the day automatically.
- It really cannot get any better than this!

WARNING
ELEVATORS SHALL NOT BE USED
IN CASE OF
FIRE OR ELECTRICAL EMERGENCY.
USE DESIGNATED EXITS.

NO SMOKING
BY ORDER OF THE FIRE CHIEF

EMERGENCY OPERATION PHASE 2

1. EMERGENCY POSITION PLACES THE ELEVATOR(S) ON EMERGENCY OPERATION.
2. CONSTANT PRESSURE ON THE DOOR CLOSE BUTTON CLOSES THE DOORS.
3. CONSTANT PRESSURE ON THE DOOR OPEN BUTTON OPENS THE DOORS.
4. HOLD POSITION HOLDS THE CAR AT THE FLOOR WITH THE DOORS OPEN.
5. NORMAL POSITION AT THE RECALL FLOOR RELEASES THE ELEVATOR.

The complete solution for elevators:

UV-Clean

- Designed for: Elevators • Public Bathrooms
- Can also be used for any closed spaces/rooms
- Price: ₹5,999

Copper Guard

- Designed for: Any flat surface, button panels, etc.
- Instant disinfection throughout life for decades with no maintenance
- Price: ₹1,999 / meter (1M x 40cm)
