

METAL SCANNER - 2030 Hand Held Metal Detector

General Specifications:	
Dimensions	Length: 418mm Width: 50mm Thickness: 27mm Coil Size: 190x95mm Coil Area: 180sq. cm
Alarm Indicators	1) Blue Light: Power On 2) Amber Light: Detection 3) Red Light (Flashing): Low Battery
Warranty	1 year on parts and labor
Batteries	Two 1.5 V Penlight Cells
Battery life	Over 80Hrs on Ni/Cad cells.
Body	Rugged ABS construction
Weight	415gms (with battery)
Charging Current	60mA ± 10%

The

Model 2030 Hand Held Metal Detector is a device designed to detect metal masses carried by people or objects. It can be used for detecting weapons, detonators or other small pieces of metal on people. A large oval search head is employed to provide extended coverage.

The detector is suitable for use by any security personnel in airports, seaports, conferences, exhibitions, or indeed any situation that requires security screening of people. It may also be used as a metal detector in various other applications.

The Model 2030 Hand Held Metal Detector is particularly easy to use, having only one push switch, all other functions are automatically self setting.

DETECTS

Medium Pistol at	10" (250 mm)
Pistol, 25 cal	8" (200 mm)
Mini revolver, 22 cal	6" (150 mm)
Cartridge, .357	4" (100 mm)
Razor blade	2" (50 mm)
Hat pin	1" (25 mm)

SCAN RATE

3" to 24" (75-600 mm) per second
