

Multi-zone Walk Through Metal Detectors

Features :

16 ZONE

- ★ Microcontroller based design
- ★ High performance multi-Zone detection
- ★ 16 real detection zones for accurate pinpointing of metal
- ★ Very high sensitivity suitable for anti-theft application
- ★ Quick installation - minimal training required
- ★ Auto calibration - Does not require Zero adjustment
- ★ Detects all metals alloys and ferrites
- ★ 200 levels of zone wise sensitivity adjustment
- ★ LED based composite zone display
- ★ Unauthorized access to programming protected by password
- ★ Intelligent people counter for entry, exit and algebraic sum
- ★ Low field strength - no effect on pacemakers & magnetic media
- ★ SMPS power supply for use with 90V to 270V
- ★ Built in full-function battery backup for over 12 hours
- ★ Easy and quick to assemble erect
